

Donna Sirianni

BIOGRAPHY

Before entering the entertainment industry, Donna Sirianni had a successful career in education as a middle school and High School Biology teacher. Her passion was working to make a positive difference in the lives of her students. She received numerous accolades from the press and was a speaker on education throughout the state of New York. After resigning to start a family with her husband, Donna decided to switch gears and follow her desire in pursuing a second career in producing, writing and acting for film and television. She decided and believed that she could expand her passion of encouraging people to find the best and brightest in themselves...this time **beyond** the classroom...and **throughout** the world.... creatively with film. She has a mind-set that says it is absolutely possible to make your dreams a reality...and she is setting out to show this through documenting this real- time journey into the entertainment world in her documentary "My Wish". It is through this film that Donna looks to encourage people worldwide to take that dream that they always thought about and actually manifest it in their life. Through "My Wish" Donna is demystifying the process of manifesting a dream...so that people know that dreams are attainable- especially when you are starting out from scratch as she has. She is taking the "esoteric" ideas such as "the law of attraction" and applying them for people to witness in real time in order to make it tangible for them in a very real, raw, "down to earth" way.

Donna's belief in the innate human quest for growth, love and the ability to manifest a fun and fulfilling life, is the foundation on which she has created Donna Sirianni Enterprises. Its mission is to create projects that will inspire humanity and have a positive impact on mainstream society through the various media of film, television, and the web- as well as through music. She has several projects in the works such as the above mentioned "My Wish" (a documentary), "More to Mommy" (a sitcom) and DreamBigNetwork.com (an online network).

Donna's love and respect for the creative process in front of the camera has led her to study the craft of acting throughout New York City. She has had principle roles in various award winning independent feature films and has been featured numerous times in Guiding Light, Law and Order as well in feature films such as Baby Mama with Tina Fey. Currently, Donna Sirianni is an associate producer as well as a host for the well established television show IndiMusic TV. This network television show is interactive (airs on television and viewers vote online) featuring the music videos of independent artists- all who are out there looking to "make it happen"!

Donna resides in Long Island, New York with her husband Tommy and their three children Julia, Anthony and Angelina.
